QuickSignals Mobile, Version 2

A mobile application for energy traders

Customer Release

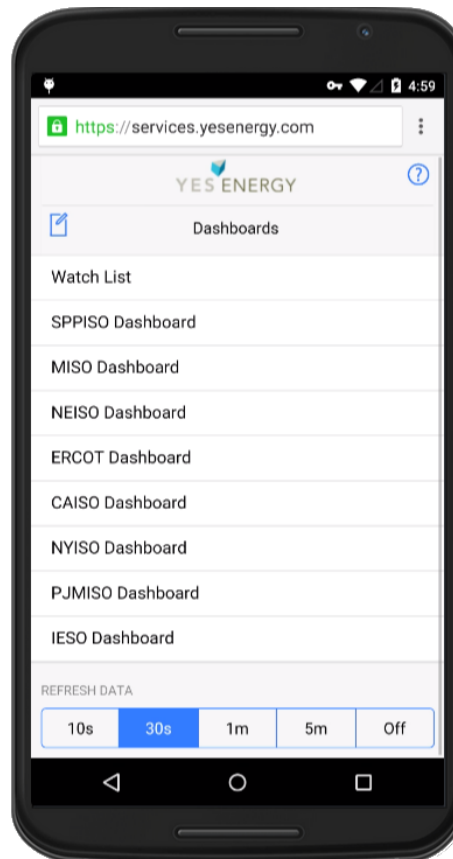

Introducing QuickSignals Mobile, Version 2.0

If you haven't checked out QuickSignals Mobile yet, now's the time! Our newest version expands on the features that allow you to monitor the market from any devices, anywhere.

Completely customize your mobile experience by creating your **own dashboards**. Or copy and modify the existing, pre-populated dashboards. You'll notice we've made **lots of new data available** too.

Using your mobile browser, go to <http://mobile.yesenergy.com> and login using your Yes Energy username and password.
